Sello Godfrey Nzimande

Founder's Note

“I envision a future where every construction project contributes to sustainable growth and development, empowering communities and creating lasting value. At Resebeletse Trading & Projects, we believe that quality construction, civil engineering, and project management services should be accessible to all, driving innovation and progress in every sector we touch.

Our commitment goes beyond just delivering projects; it's about enhancing the lives of our employees, especially those from historically disadvantaged backgrounds, and ensuring that we create a positive, lasting impact on the communities we serve. Through a dedication to excellence and a focus on the core values of Safety, Health, Environment, and Quality (SHEQ), we strive to build a better tomorrow, today. ”

Mr S. G Nzimande

Executive Summary

Resebeletse Trading and Projects is a **100% black-owned** South African company specializing in **construction, civil engineering, electrical engineering, pumps & valves supply and project management**. With a proven track record of delivering high-quality infrastructure projects, the company combines technical expertise, skilled professionals, and sustainable practices to meet the needs of both public and private sector clients.

Our team consists of experts in various fields, including civil engineering, quantity surveying, project administration, compliance, and financial advising. Resebeletse Trading and Projects is fully compliant with industry standards, including the Public Finance Management Act (PFMA) and BBBEE. These commitments, along with our registration with the Construction Industry Development Board (CIDB), ensure that we deliver top-tier services while meeting regulatory and ethical requirements.

In addition to our technical proficiency, Resebeletse is dedicated to empowering communities, fostering innovation, and achieving excellence. Our focus on these principles positions us as a reliable partner for government and private sector projects, and we pride ourselves on our ability to handle complex and large-scale projects while maintaining strong client relationships and high satisfaction.

Company Overview

Resebeletse Trading and Projects is a distinguished 100% black-owned South African construction company specializing in civil engineering, road construction, building renovations, electrical engineering, pumps & valves supply and project management., established to address the growing demand for reliable and high-quality construction services, the company has become a trusted leader in its field. Resebeletse Trading and Projects prides itself on delivering innovative and sustainable solutions that contribute to the development and growth of communities across South Africa.

With its headquarters located in Turffontein, Johannesburg, Resebeletse has successfully executed a diverse range of projects throughout various provinces, earning a reputation for excellence in project delivery. The company combines technical expertise, experienced professionals, and cutting-edge technology to meet the needs of both public and private sector clients. Through a commitment to quality, safety, and efficiency, Resebeletse consistently exceeds client expectations while adhering to industry standards.

Resebeletse Trading and Projects is a fully registered entity under South African law with the registration number 2009/017485/23. The company holds CIDB grading of 2CE and 1GB, showcasing its ability to manage civil engineering and building projects of varying scales. Resebeletse is also compliant with BBBEE and other relevant legislative and regulatory frameworks, demonstrating a strong commitment to ethical business practices, sustainable development, and community empowerment.

VISION & MISSION

Vision

To become a leading construction, plumbing and electrical engineering company in South Africa, recognized for its quality, innovation, and dedication to community development.

Mission

To deliver high-quality construction, plumbing and electrical engineering solutions tailored to client needs while fostering sustainable development, empowering local communities, and adhering to the highest standards of safety and integrity.

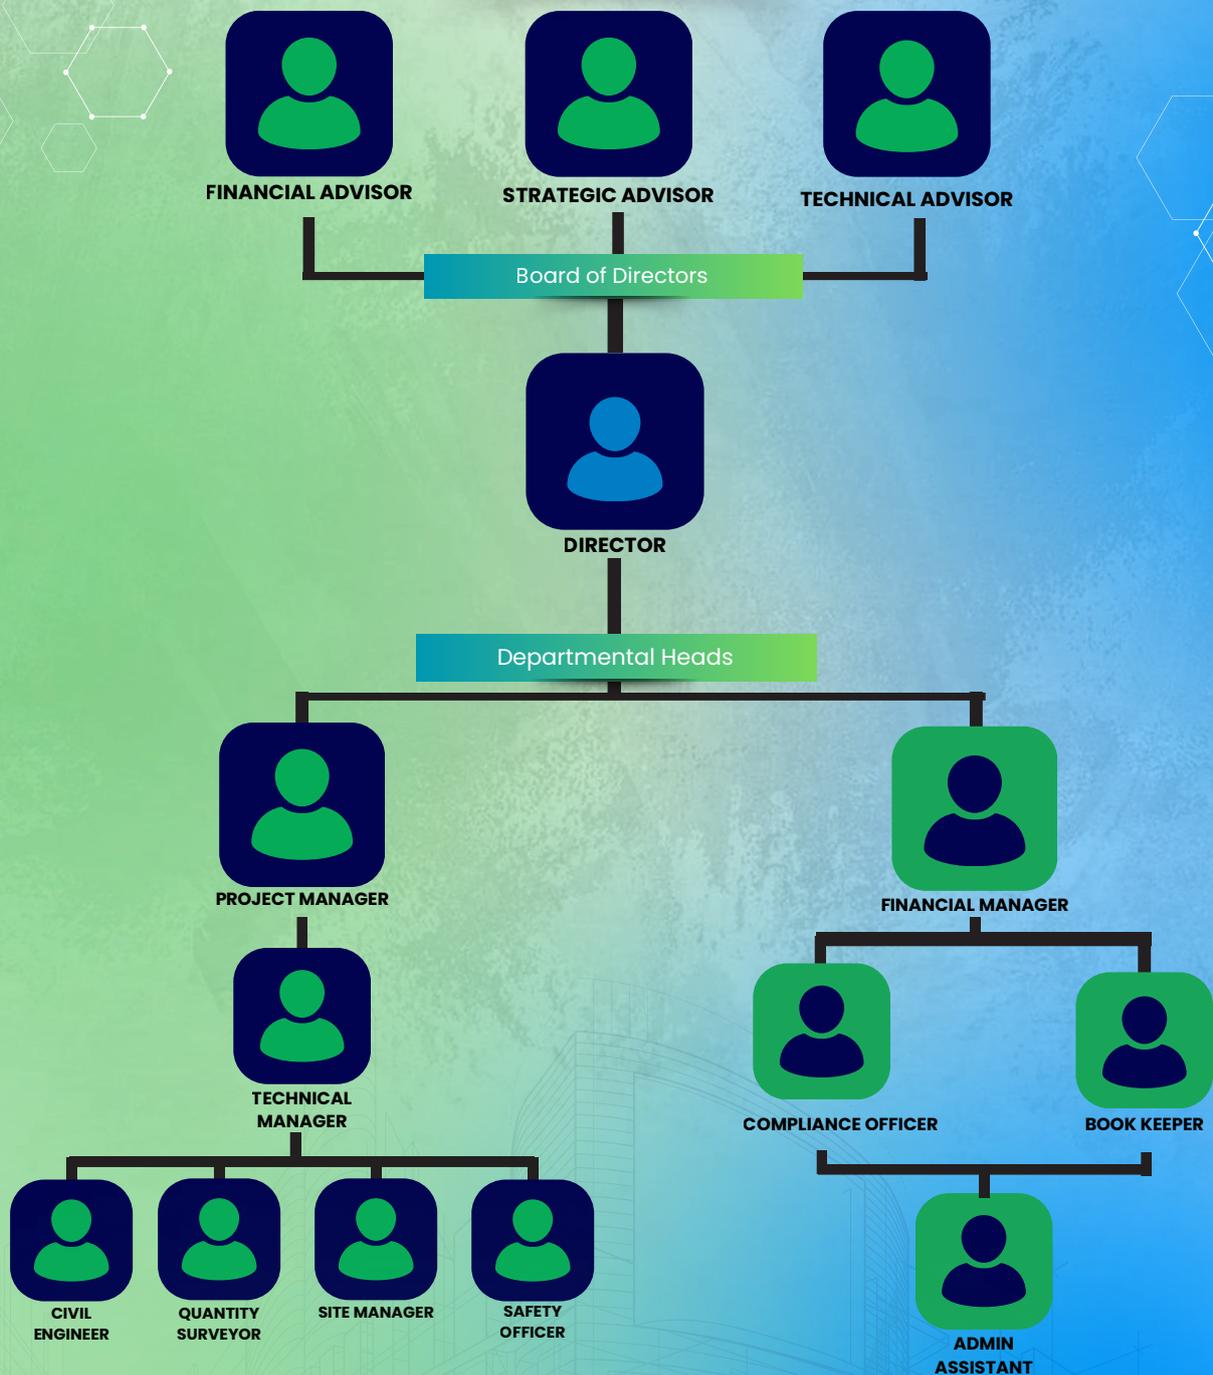

Core Values

- Integrity: Honesty and transparency in all dealings.
- Quality: Delivering excellence in every project.
- Innovation: Leveraging cutting-edge solutions for maximum impact.
- Empowerment: Supporting local communities through employment and skills development.

Construction Services

At Resebeletse Trading & Projects, we specialize in the comprehensive management of construction projects, serving as trusted "Implementing Agents." Our services include overseeing all aspects of project delivery, from sourcing land and coordinating bulk and link infrastructure to appointing and managing a professional team. We pride ourselves on delivering exceptional results through detailed feasibility studies, master planning, innovative design, and meticulous construction supervision. Our approach ensures that every project is executed efficiently and meets the highest industry standards.

List of Services:

- Building
- Cold Mixing
- Sand Blasting
- Building of houses
- Building of complex
- excavation and pipe laying,

Services

Pumps & Valves Supply

We supply robust, high-performance pumping systems designed for industrial and mining environments where reliability and uptime are critical. Our solutions are engineered to operate under abrasive, corrosive, and variable-flow conditions.

Applications

Sludge: Settling ponds, thickener underflow, tailings and slurry transfer

Dirty Water: Underground dewatering and stormwater management

Clean Water: Drinking, utility, and process water supply
Pump Solutions

Sludge Pumps: Submersible slurry pumps (High-chrome alloy, 5.5–45 kW)

Dirty Water Pumps: Self-priming or centrifugal dewatering pumps (Cast iron / stainless steel, 4–22 kW)

Clean Water Pumps: Multistage centrifugal or borehole pumps (Stainless steel, 2.2–18.5 kW)

Pumps & Valves Supply Technical Ability

Technical Capability

Flow Rates: 5–150 m³/hr

Heads: 10–120 m

Solids Handling: Up to 60 mm (sludge)

Protection: IP68-rated submersible motors

Efficiency: >65% for clean water units; heavy-duty seals for sludge and dirty water

Options: VFD compatibility, dry-run protection, float level sensors

Fittings & Accessories

Complete system supply includes mine-grade valves, piping, and fittings:

PN16 industrial valves (gate, non-return, ball)

SABS-approved flanges, reducers, flexible couplings

HDPE (Class 10–16), galvanized steel, or stainless steel piping

Strainers, lifting chains, brackets, and mounting baseplates

All components are selected to ensure system integrity, safety, and long-term operational performance.

Services

Electrical Engineering

At Resebeletse Trading & Projects, we provide professional electrical engineering services as part of our comprehensive project management solutions. Our team specializes in designing, installing, and maintaining electrical systems for residential, commercial, and industrial projects. We ensure safe, efficient, and reliable power solutions by integrating modern technology, industry standards, and meticulous project coordination. From initial design to final testing, our services guarantee that every electrical system operates flawlessly and meets client requirements.

Electrical Engineering Services Include:

- Electrical system design and planning
- Power distribution and wiring
- Circuit installation and maintenance
- Lighting solutions for residential and commercial spaces
- Electrical safety inspections and testing
- Energy-efficient solutions and automation
- Backup power systems and generator installation

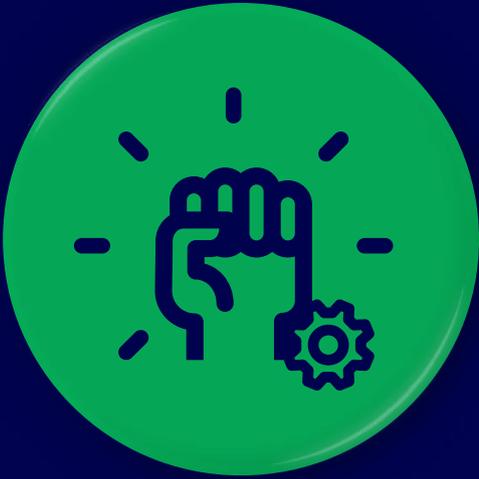

Services

Project Management

Resebeletse Trading & Projects provides comprehensive engineering solutions tailored to meet the unique needs of each client, covering every stage of the project life cycle. Our services include project development, scoping, pre-feasibility and feasibility studies, detailed design, tendering, procurement, and contract management. We also specialize in financial modeling to assess project viability, project risk management, quality assurance, and construction management.

Committed to industry standards and compliance, we adhere to regulations such as the **Public Finance Management Act (PFMA)**, the **Broad-Based Black Economic Empowerment (BBBEE) Act**, and the **Occupational Health and Safety Act (OHSA)**. Our commitment ensures our projects meet the highest quality and safety standards, fostering trust and delivering excellence in every undertaking.

WHY

We are your best choice

Resebeletse Trading & Projects prides itself on dynamic and highly skilled site management teams with extensive experience across all facets of civil engineering, plumbing and construction. Our expertise spans diverse industries and site-specific challenges, supported by a dedicated workforce and company-owned machinery, equipment, and tools operated by our proficient staff. We deliver tailored solutions through professional project managers, supervisors, and on-site assembly teams with rigging and crane capabilities.

Our approach is rooted in Professional Engineering excellence, offering comprehensive consultation services that include information collection, organization, storage, and retrieval. Using a methodical approach to problem-solving, we ensure that our solutions are both innovative and practical.

We uphold stringent Quality Assurance standards, ensuring full compliance with site specifications. On-site testing and analysis further reinforce our commitment to delivering projects of exceptional quality while adhering to regulations such as the Occupational Health and Safety Act (OHSA) and maintaining strict alignment with the Public Finance Management Act (PFMA) and Broad-Based Black Economic Empowerment (BBBEE) Act.
